

Oracle Licensing & Subscription Services

Regain visibility, take control and understand your Oracle software assets

Inoapps is here to help you manage and understand your Oracle licensing and subscriptions. Our services put you in control of your Oracle estate to help you ensure your utilization matches your licenses and subscriptions and that you are making full use of your investment.

Our Licensing & Subscription Services give you full visibility into your existing deployments to make sure your environments are optimized, and to help model future procurement and management strategies.

If any of this sounds familiar, then it's time to talk to Inoapps

Inoapps provides Licensing & Subscription Services for your entire Oracle estate

From infrastructure to applications, procurement to decommissioning, Inoapps supports our customers through the entire lifecycle of Oracle software asset management. We are here to help you identify potential licensing risks and to assist you in managing these through our licensing expertise and practical technical help.

Our service portfolio includes

Oracle Software Asset Management (SAM) Program

For Oracle Database, Fusion Middleware and E-Business Suite on-premises. The official Oracle SAM program provides a structured approach to license management, ensuring that licenses and subscriptions match usage in preparation for a potential audit waiver request.

Oracle SaaS Subscription Review

For all Oracle SaaS subscriptions. The service provides clear visibility of Oracle assets, existing services, roles and custom roles, privileges and overall usage to identify and address subscription differences, especially at renewals.

Oracle License Optimization

Works alongside our other licensing services to help maximize the value of Oracle investments through strategies like Oracle asset consolidation, architecture remodeling and license and subscription advice.

Our services offer

A clear view of your Oracle estate.

Through evidential data and clear explanations, we provide you with actionable insights into your Oracle estate. This includes modeling to identify cost centers and where savings can be made, to help you make informed decisions that maximize your investments.

Identification of breaches or unauthorized usage.

We will pinpoint any license and subscription breaches, highlight any usage outside of allocations and make recommendations on how to remediate.

Complete confidentiality.

All our engagements operate under a framework of Non-disclosure Agreements, protecting you and your data.

An understanding of the small print.

We will review your contractual agreements, apply clauses as needed, and highlight opportunities for potential savings in your support and subscription renewals.

Predictable cost of service.

Our services come at a cost effective price, with no hidden charges linked to size of estate or complexity of licensing.
